

RAVI KUMAR

Aspiring Data Analyst | SQL, PostgreSQL, Python, Excel & Power BI
Ghaziabad, Uttar Pradesh | 9205093519 | ravi813074@gmail.com | [Github](#) | [Linkdin](#)

Professional Summary

Detail-oriented and analytically driven B.Tech Information Technology student with hands-on experience in data analysis, data cleaning, and visualization using Python, SQL, PostgreSQL, Excel, Power BI, and Tableau. Skilled in exploratory data analysis (EDA), dashboard design, and data storytelling, with a strong foundation in data structures, algorithms, and statistical analysis. Completed industry-recognized certifications including the Deloitte Data Analytics Job Simulation. Proven ability to translate raw data into actionable insights through self-driven projects. Seeking a Data Analyst Internship or Entry-Level Data Analyst role to apply analytical skills and contribute to data-driven decision-making.

Core Skills

Programming & Querying: Python, SQL, PostgreSQL, SQL Query Optimization, Data Mapping

Data Analysis & Visualization: Excel (Advanced), Power BI, Tableau, Google Data Studio, Exploratory Data Analysis (EDA), Data Cleaning, Data Modeling, Data Storytelling, KPI Analysis, Dashboard Design, Statistical Analysis, Big Data Processing

Analytical Foundations: Data Structures (Arrays, Stacks, Queues, Linked Lists, Trees), Algorithmic Thinking, Complexity Analysis, Problem-Solving

Soft Skills: Communication, Critical Thinking, Teamwork, Problem-Solving, Adaptability

Technical Projects

Online Book Store | PostgreSQL

2026 — [GitHub Repository](#) & [Live Demo Available](#)

- Designed and implemented a relational database schema in PostgreSQL to manage books, customers, and orders for an online bookstore application.
- Wrote optimized SQL queries to support core store operations, including inventory tracking, order processing, and customer record management.
- Deployed a working live demo to showcase end-to-end database functionality.

Netflix Movie Data Analysis | Python, EDA, Data Visualization, Data Cleaning, Big Data Processing

2026 — [GitHub Repository](#) & [Live Demo Available](#)

- Cleaned and preprocessed a large-scale Netflix movies dataset, resolving missing values and inconsistent formatting to ensure data quality.
- Performed exploratory data analysis (EDA) in Python to identify trends across genres, popularity scores, vote counts, and release years.
- Built visualizations using Python data visualization libraries to communicate insights on content trends and audience engagement patterns.

Smart Traffic Analysis and Congestion Prediction | Python, Power BI, EDA, PostgreSQL

2026 — [GitHub Repository Available](#)

- Developed a data-driven system to monitor traffic conditions and analyze historical traffic patterns using Python and PostgreSQL.
- Applied EDA and machine learning techniques to identify congestion trends and predict future traffic congestion levels.
- Created interactive Power BI dashboards to visualize traffic flow and congestion predictions for easier stakeholder interpretation.

Problem Solving & Data Structures

Active LeetCode practitioner with a solid understanding of core data structures (arrays, stacks, queues, linked lists, trees) and algorithmic thinking, including time and space complexity analysis. Applies Python, SQL, and Excel to solve real-world data problems efficiently, and continuously builds technical skills through projects, certifications, and consistent coding practice.

Certifications

Deloitte Data Analytics Job Simulation — Forage

September 2025

- Skills gained: Advanced Excel, Data Visualization, Data Cleaning, Data Modeling, Tableau, Data Storytelling.

SQL Micro Course — Skill Course E-Learning Platform

February 2026 – March 2026

- Skills gained: Data Mapping, Data Cleaning, SQL Query Optimization, SQL, PostgreSQL.

AI-Powered Python Micro Course — Skill Course E-Learning Platform

March 2026 – April 2026

- Skills gained: Python.

Power BI Micro Course — Skill Course E-Learning Platform

September 2025 – October 2025

- Skills gained: Data Visualization, Statistical Analysis, KPI Analysis, Dashboard Design, Data Modeling, Power BI, Data Storytelling.

Excel Micro Course — Skill Course E-Learning Platform

August 2025 – September 2025

- Skills gained: Data-Driven Decision Making, Advanced Excel, Data Visualization, Data Cleaning, Data Modeling, Google Data Studio, Data Storytelling.

Education

B.Tech, Information Technology

Hi-Tech Institute of Engineering and Technology | 2023 – 2027 (Expected)

Class XII (Senior Secondary)

Rehnuma-E-Qoum Islamiya Inter College, Nahal, Ghaziabad | 2023 | Percentage: 65.4%

Class X (Secondary)

DSP Inter College, Kasmabad, Hapur | 2021 | Percentage: 81%
